

India's Agricultural Crop Production Analysis

TEAM ID	SWTID-2026-4021
PROJECT TITLE	India's Agricultural Crop Production Analysis
MAX MARKS	3 MARKS

6.3 – Data Preparation

CHART TITLE	CHART TYPE
KPIs – Total Production & Total Yield (2 KPI tiles)	KPI
Trend of Agricultural Yield (1997–2021)	Line Chart
State-wise Agricultural Production Distribution	India Map
Crop-wise Total Production Analysis	Horizontal Bar Chart
State-wise Cultivated Area Comparison	Grouped Bar Chart
Leading States by Agricultural Production	Bar Chart
Year-wise Total Agricultural Production (1997–2021)	Bar Chart
Production Distribution by Unit Type	Donut Chart
Season-wise Agricultural Production Share	Pie Chart

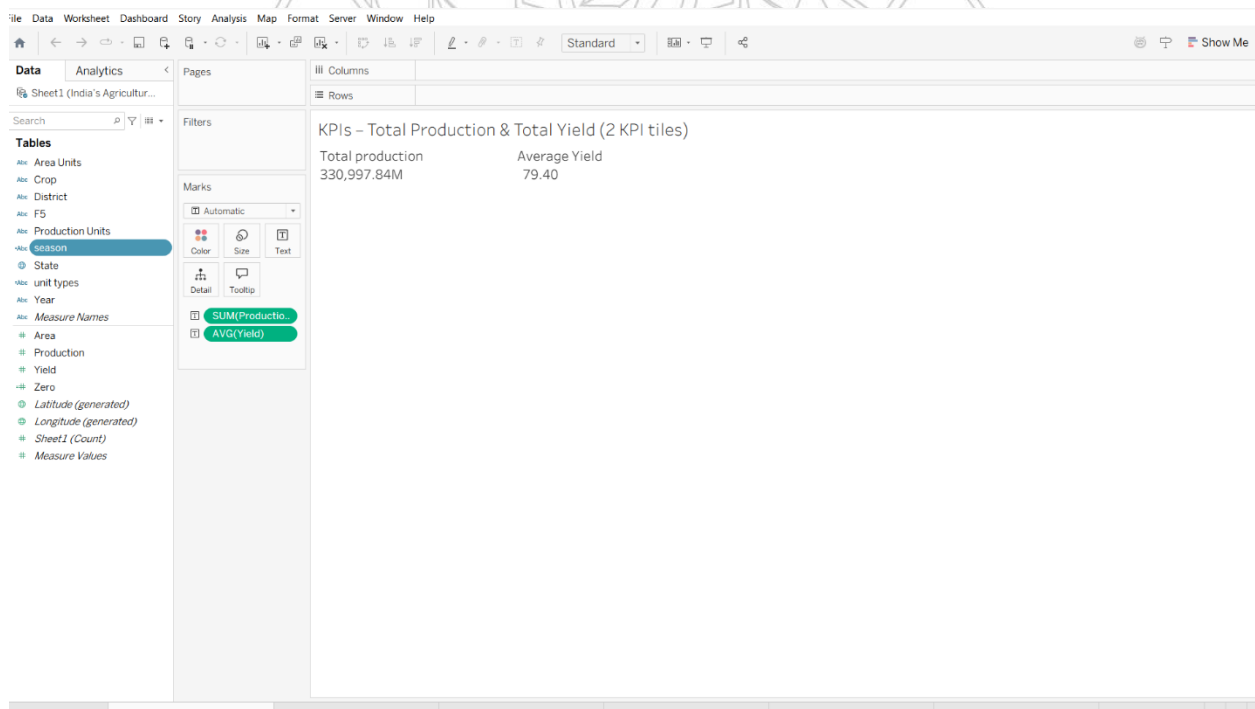

India's Agricultural Crop Production Analysis

Sheet - 1 - KPIs – Total Production & Total Yield (2 KPI tiles)

STEPS: -

1. Drag **production** to text
2. Drag **yield** to text
3. Click **Text** option then click the three dots option
4. Next to Rename total Production & Average yield
 - < SUM (production)> <AVG (yield)>
5. Right click on the sum production and select the format option and click the default
6. Then click number option and select the millions
7. Right click on the Average and select the format option and you click the default menu then click number option and select millions

Output:

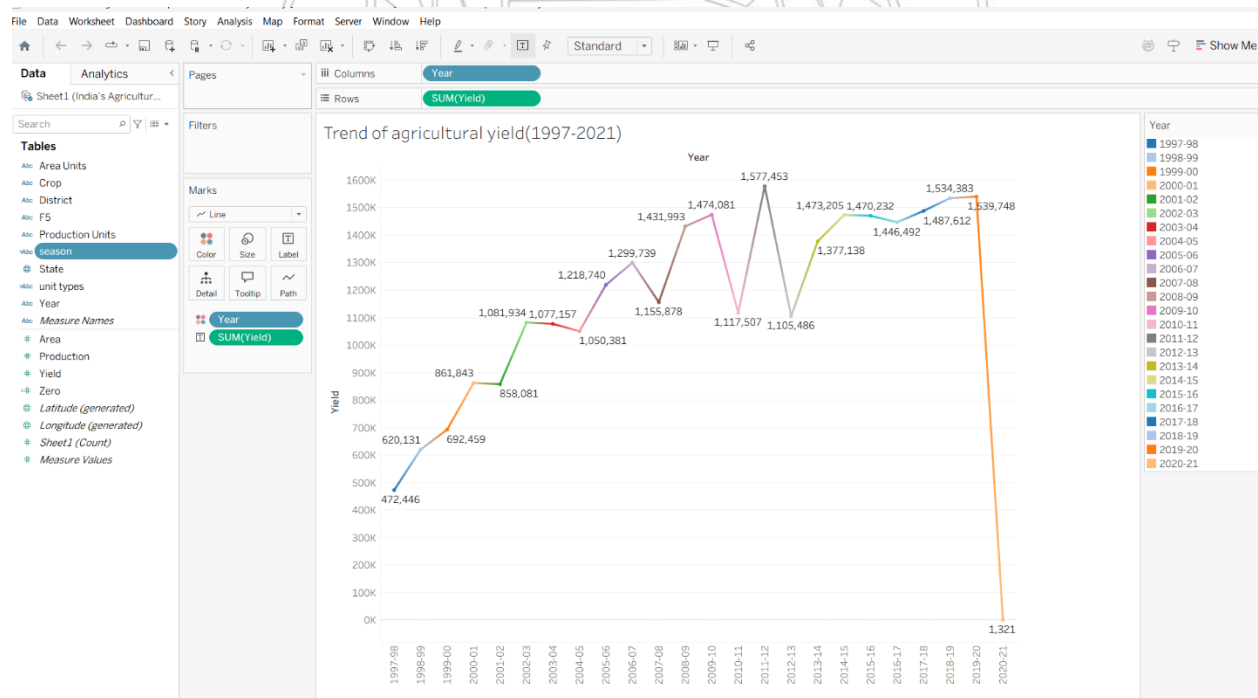

India's Agricultural Crop Production Analysis

Sheet - 2 -Trend of Agricultural Yield (1997–2021)

Steps: -

1. Drag year to column shelf
2. Drag yield to row shelf
3. Drag year to color
4. Drag yield to label
5. Right click on the Marks card select line

Output:

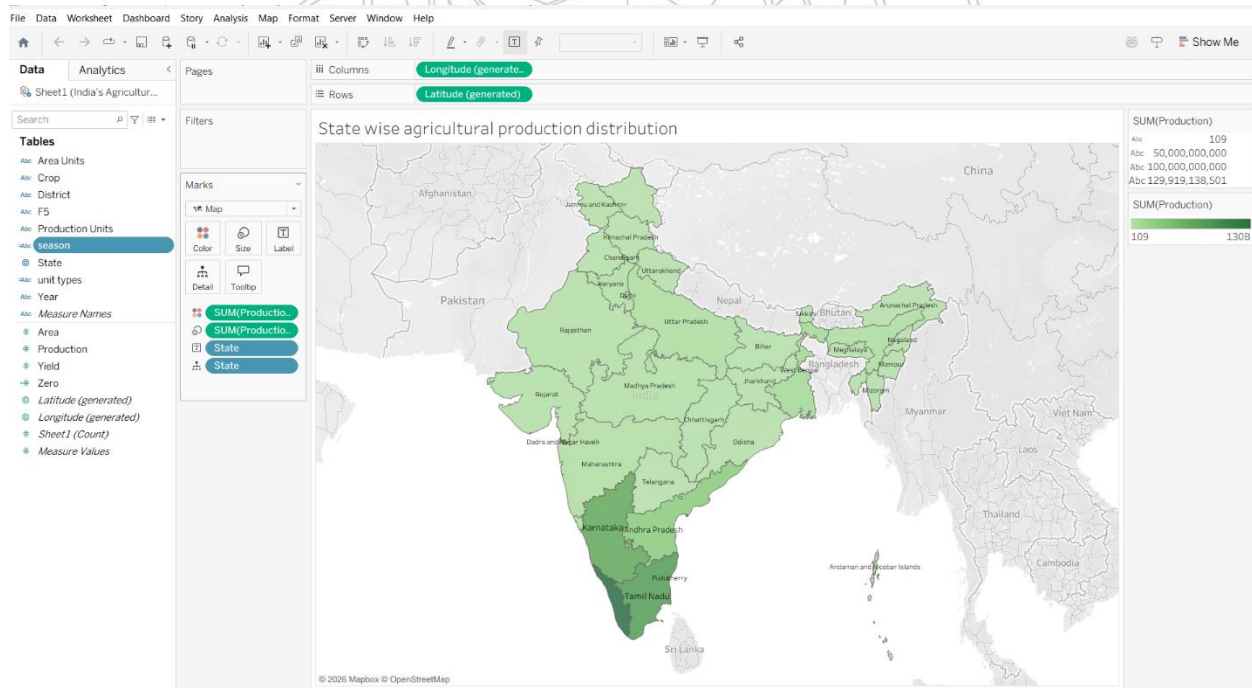

India's Agricultural Crop Production Analysis

Sheet - 3 -State-wise Agricultural Production Distribution

Steps: -

1. Drag state to detail option
2. Drag production to size option
3. Drag state to label
4. Drag production to color
5. Click on the color option and select the green color

Output:

BRAVO
— BUILDERS —

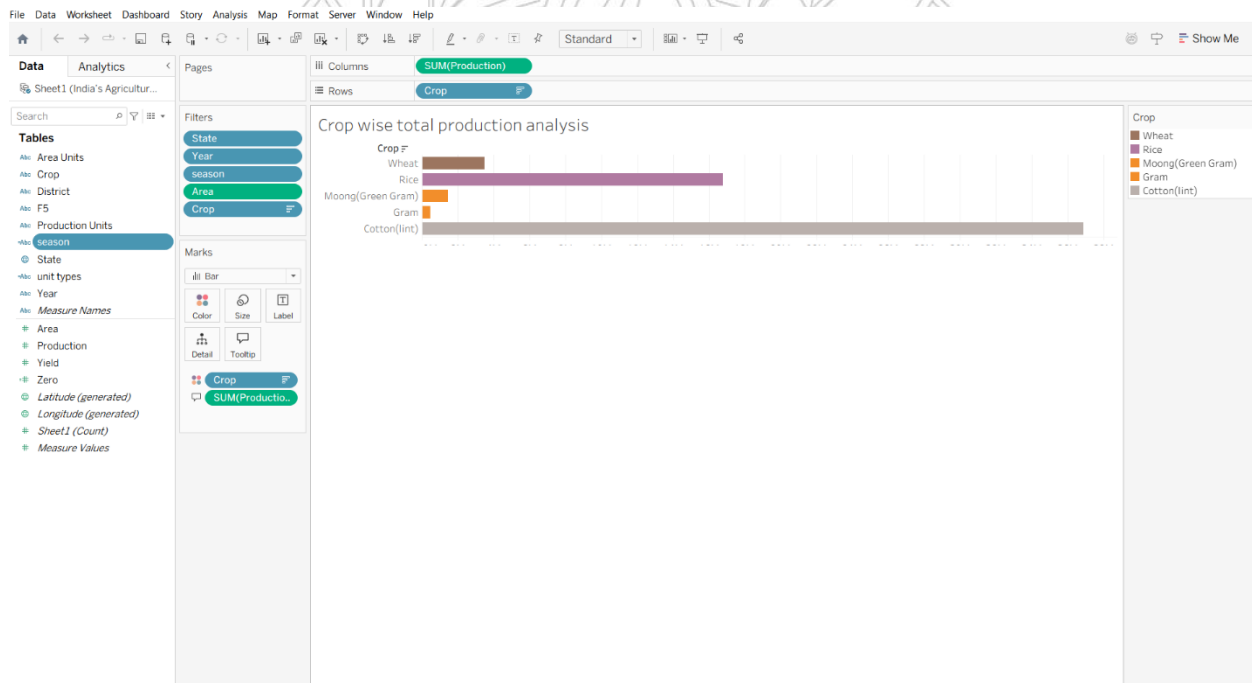

India's Agricultural Crop Production Analysis

Sheet - 4 -Crop-wise Total Production Analysis

Steps: -

1. Drag production to Columns shelf
2. Drag Crop to Rows shelf
3. Drag Crop to color
4. Drag Production to Label
5. Drag Crop to Filters
6. Drag state to filter shelf click none option
7. Click on top
8. Top right-side give value 5

Output:

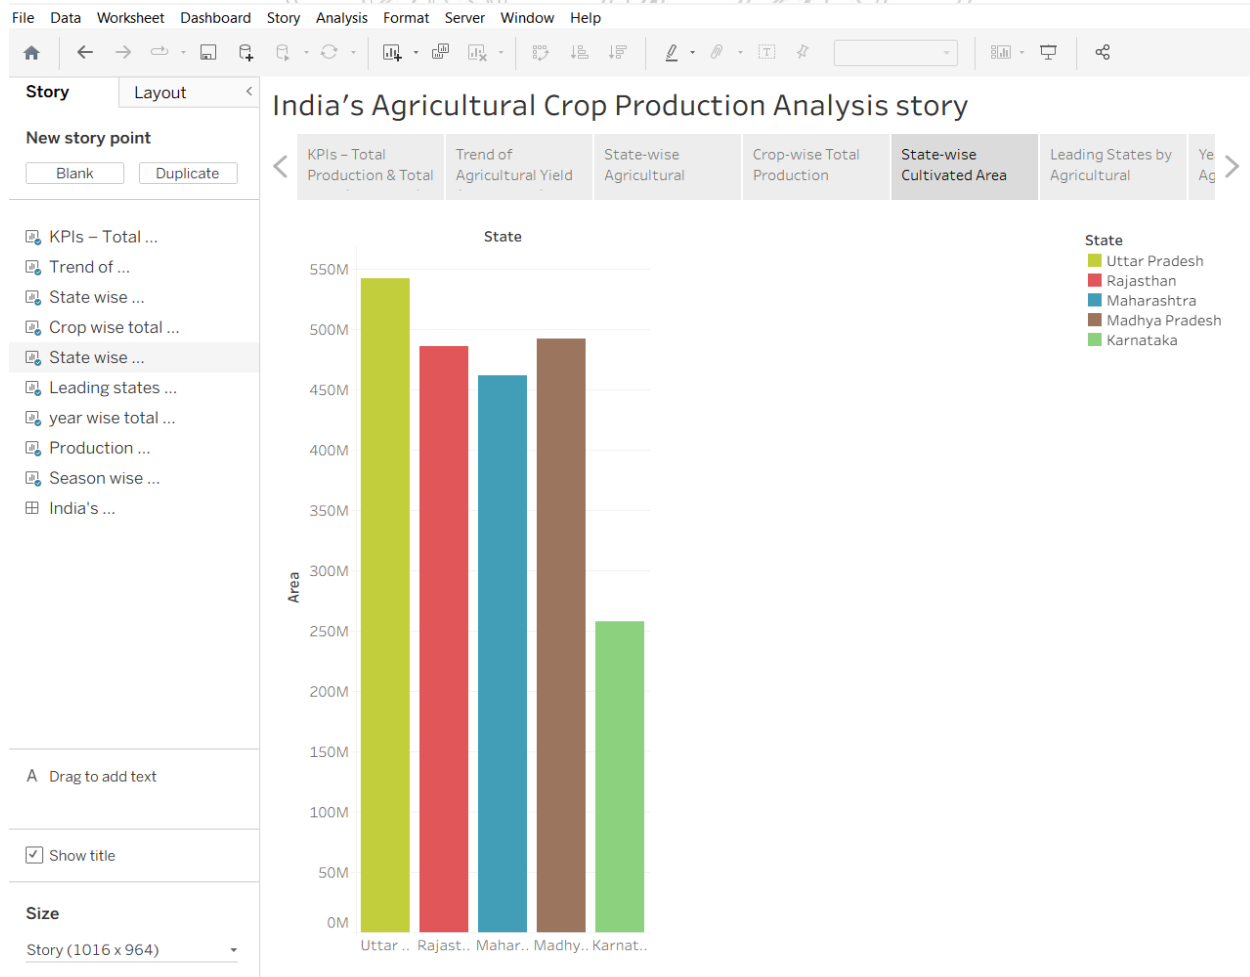

India's Agricultural Crop Production Analysis

Sheet - 5 -State-wise Cultivated Area Comparison

Steps: -

1. Drag state to column shelf
2. Drag area to row shelf
3. Drag state to filter shelf click none option
4. After you select the Rajasthan, Maharashtra, Uttar Pradesh, Madhya Pradesh, Karnataka
5. In columns shelf right click on states
6. Click on sort and select Descending

Output:

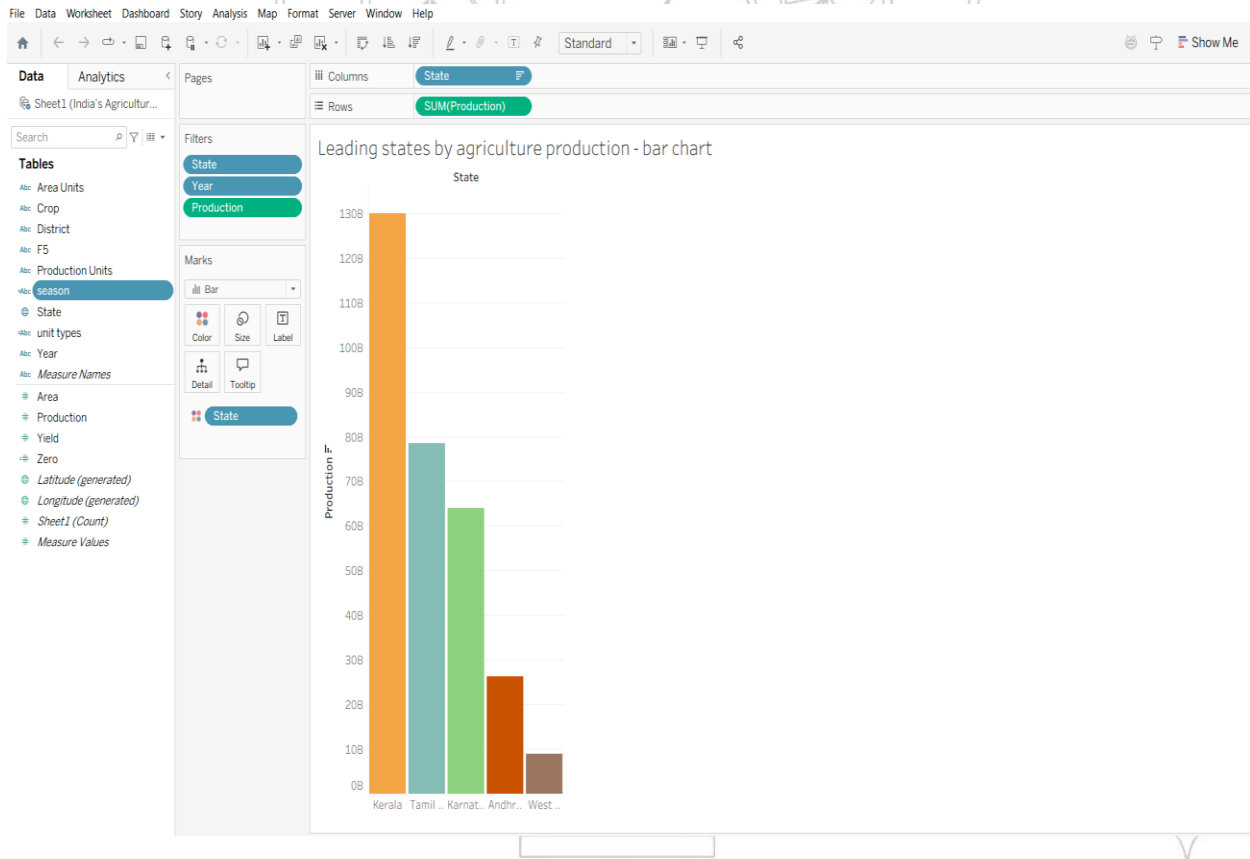

India's Agricultural Crop Production Analysis

Sheet - 6 -Leading States by Agricultural Production

Steps: -

1. Drag State to Columns
2. Drag Production into a Rows
3. Drag State to Color
4. Drag State to Filters click none option
5. Top right-side give value 5 and
6. It Shows top agricultural production

Output:

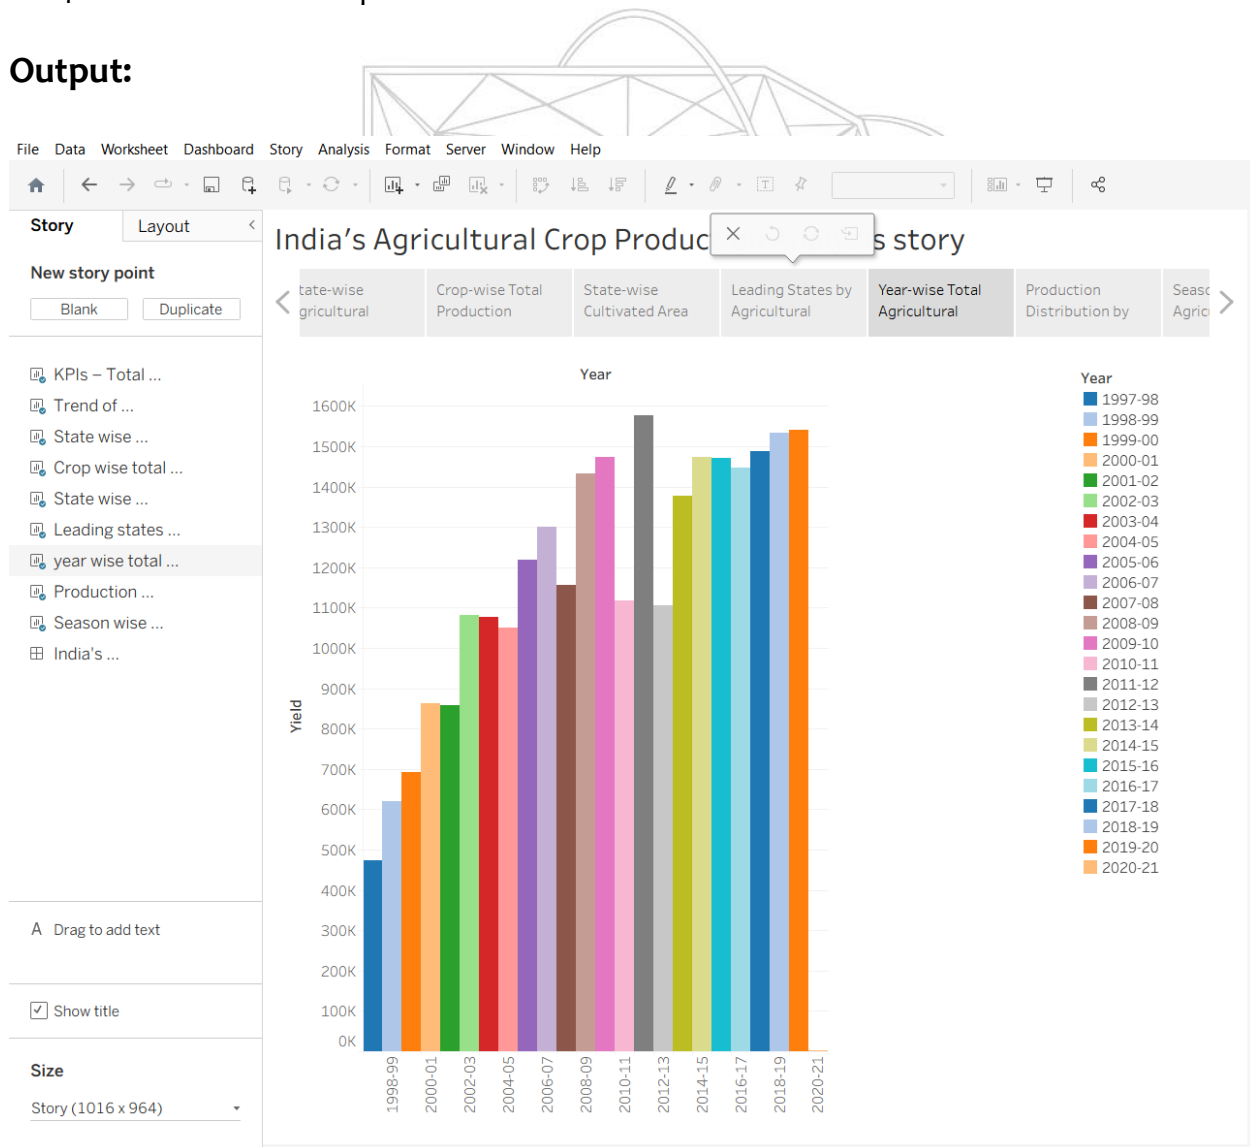

India's Agricultural Crop Production Analysis

Sheet - 7 -Year-wise Total Agricultural Production (1997–2021)

Steps: -

1. Drag year to column shelf
2. Drag yield to row shelf
3. Drag year to color
4. Select the winter option into the color

Output:

India's Agricultural Crop Production Analysis

Sheet - 8 -Production Distribution by Unit Type

Steps: -

1. Go to analysis option and select the create calculation option
2. Then you type the zero in heading area
3. Next to type the 0 in heading below area
4. Then click the ok option

Then you type the unit type in heading area

```
IF [Production Units] = "Tonnes" THEN "Baleg"
```

```
ELSEIF [Production Units] = "Bales" THEN "Nuts"
```

```
ELSEIF [Production Units] = "Nuts" THEN "Tonnes"
```

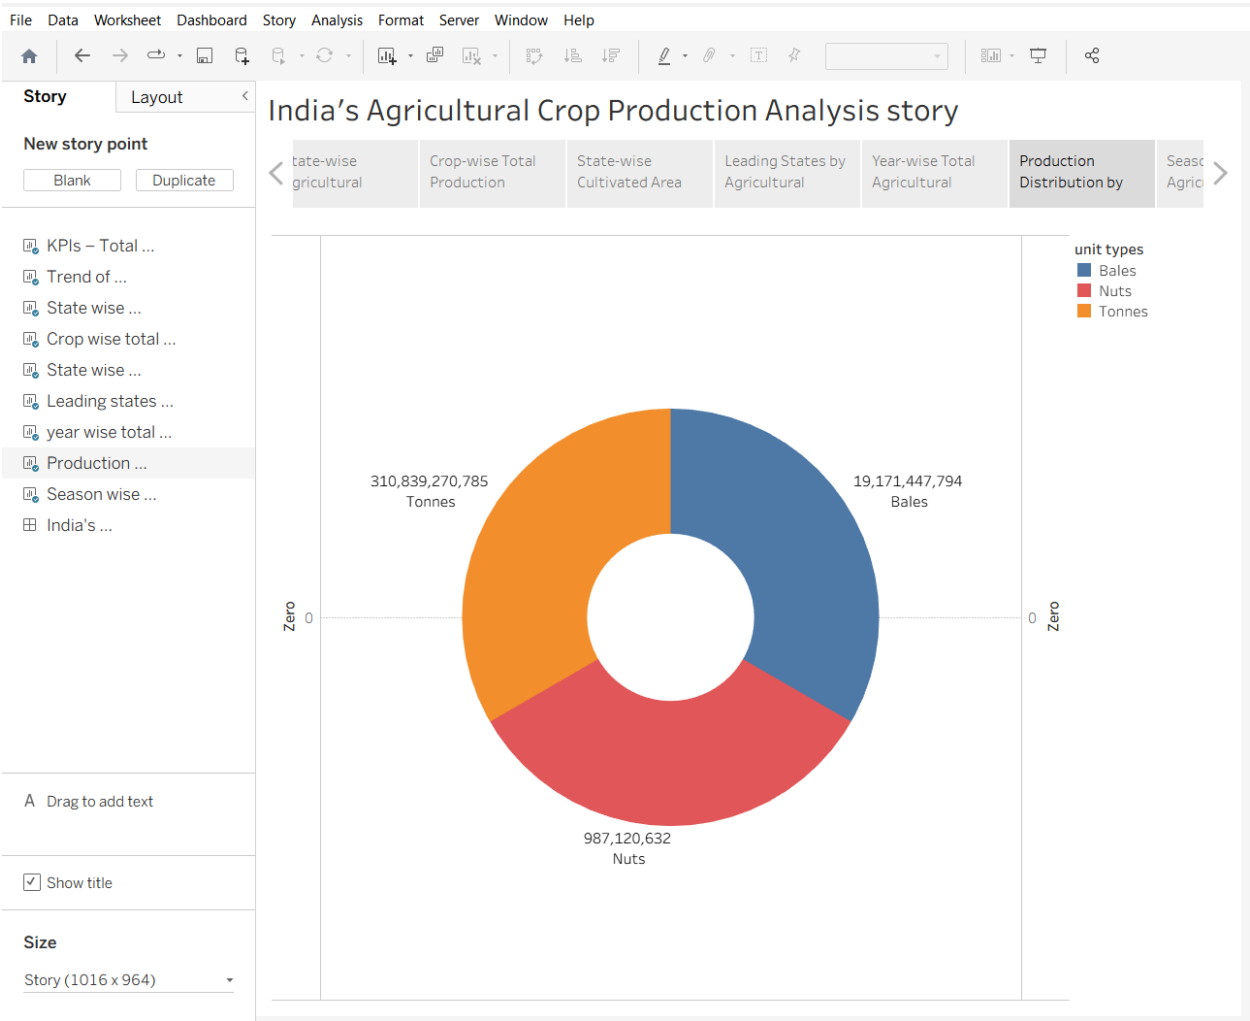

```
ELSE "Other"
```

```
END)
```

5. Drag zero to row shelf
6. In the Marks card, change the chart type from Automatic to Pie
7. Drag zero to right side of the row shelf
8. Click the right side of the sum zero option
9. Then you select the dual axis
10. After you click the dual axis and click the entire view option in the toolbar
11. In the marks card go to second sum zero and increase the size
12. Then go to color option choose white
13. Then go to mark card and select first sum zero increase the size
14. Drag unit type and placed into a color in Marks card
15. Drag and unit type and placed into a label

India's Agricultural Crop Production Analysis

Sheet - 9 -Season-wise Agricultural Production Share

Steps: -

1. Click the Analysis menu and select create the calculated field
2. Enter the Name as Season and type the formula

CASE [F5]

WHEN Kharif "THEN "Kharif"

WHEN "Rabi" THEN "Rabi"

WHEN "Summer" THEN "Summer"

WHEN "Autumn" THEN "Autumn"

WHEN "Winter" THEN "Winter"

ELSE "Whole Year"

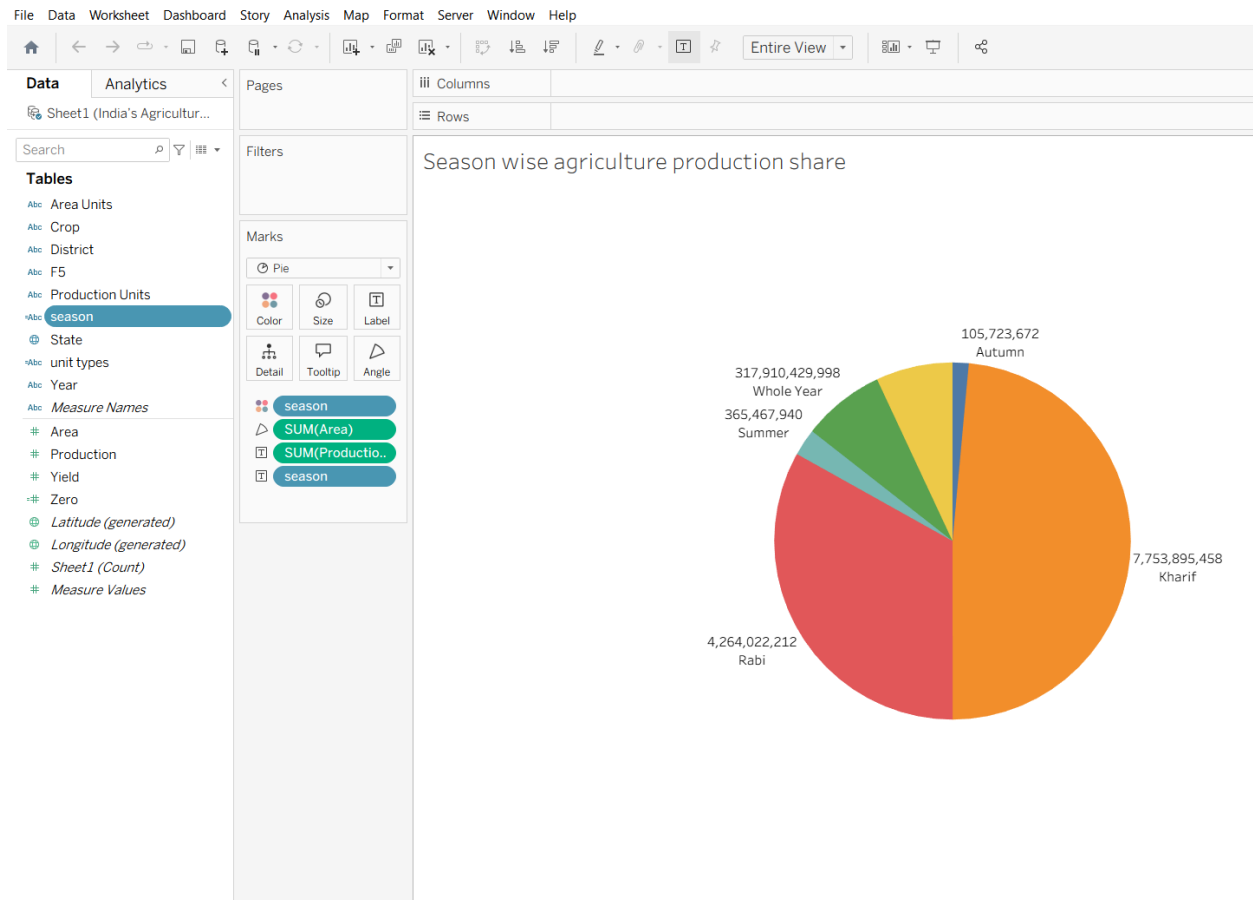

END

3. In marks card click the pie option
4. Drag season to color
5. Drag are to angle
6. Drag season to label
7. Drag production to label
